## MOVING HOME CHECKLIST

### The Most Important Thing Not To Do Is Leave Everything Until the Last Minute!

Before you start packing consider what you don't need to take with you, what will need careful packing and the company you have chosen to do your next home removal are covered for any potential breakages etc.

### The Cost of Moving Home: There is no better time to move than now!

In both the buying and selling of homes the cost of moving home plummeted by 39%. The average cost to move home in 2020 was £10 911 until the stamp duty was introduced which reduced the cost to £6 669. This made 2020 the cheapest time to move in decades.

## Things To Get Prepared Before Your Removal Day

### Make a Priority Packing List

This will get you organised and helps in choosing the right packing and moving materials you require to purchase.

### Clear Out All of Your Unwanted Items

Sort through your belongings. Any items that you do not want can go to charity or you can sell on the internet.

### How Many Packing Boxes Do You Need?

Estimate how many boxes you need and get them straight away. Get your boxes in a selection of sizes. Old newspaper is good for lining your boxes.

### Use Bubble Wrap and Resealable Bags

Resealable bags are great for keeping nuts and bolts in a safe place for any furniture that needs to be dismantled.

### Have Any Hazardous Materials?

If you have any paint, bleach or aerosols its best to put these in a separate box and keep them away from other items.

### Make Sure You Write on Each Box!

It's essential that you write on each of your boxes. Write on what is in them and also what room they are going to.

Our removals team are always on hand if you require any help or advice. Our professional team can offer the best solution for your move and will make it totally stress free.

You can contact us by phone or email and we would love to hear from you. Why not get in touch today?
